

Vernon Tool[®] Magnetic Rotating Ground

Magnetic Ground for 3" to 60" Pipe

APPLICATION INFORMATION

The Vernon Tool Magnetic Rotating Ground is rated for 400 amps with unlimited rotations, engineered to hold up in high current applications and safely dissipate heat generated on the ground while cutting in heavy wall thicknesses. The ground connects magnetically inside pipe larger than 3" inside diameter, and is clearanced to allow operation on roller bed style CNC pipe cutting machines.

This single ground will allow you to connect to pipes with an inner diameter between 3" and 60" with no adjustments necessary. This decreases the downtime between changing diameters and having to adjust a mechanical type ground.

The high quality rotation joint with heat sink allows for cutting in high current applications without becoming dangerously hot to the operators touch.

Product Highlights

- Magnetically attached to the ID of 3-60" Pipe
- Unlimited rotations prevent twisting of the ground cable
- Heat sink on rotation dissipates heat in up to 400 amp operations
- Simple installation onto existing ground wire

Part Number

- V17221

CUSTOMER ASSISTANCE POLICY

The Lincoln Electric Company is manufacturing and selling high quality welding equipment, consumables, and cutting equipment. Our challenge is to meet the needs of our customers and to exceed their expectations. On occasion, purchasers may ask Lincoln Electric for information or advice about their use of our products. Our employees respond to inquiries to the best of their ability based on information provided to them by the customers and the knowledge they may have concerning the application. Our employees, however, are not in a position to verify the information provided or to evaluate the engineering requirements for the particular weldment. Accordingly, Lincoln Electric does not warrant or guarantee or assume any liability with respect to such information or advice. Moreover, the provision of such information or advice does not create, expand, or alter any warranty on our products. Any express or implied warranty that might arise from the information or advice, including any implied warranty of merchantability or any warranty of fitness for any customers' particular purpose is specifically disclaimed.

Lincoln Electric is a responsive manufacturer, but the selection and use of specific products sold by Lincoln Electric is solely within the control of, and remains the sole responsibility of the customer. Many variables beyond the control of Lincoln Electric affect the results obtained in applying these types of fabrication methods and service requirements.
